

# FOUR ANATOMICAL SECRETS TO AUTHENTICITY

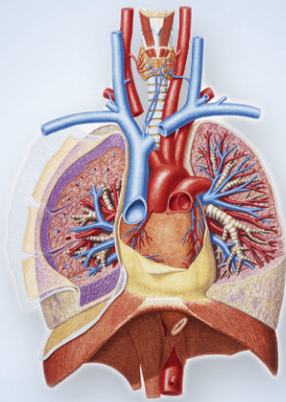

## The Tongue

*The tongue is the strongest muscle in the human body and the only one attached at one end. With it, you must lick the nouns like lollipop heads as they fly out of your mouth and splat on the inner slideshow of the listener.*

## The Asshole

*If you relax your asshole, you can stare down a firing squad. If you relax your asshole, you can control time.*

## The Lungs

*The Algorithm of Truth:*

$$\underset{\substack{\text{(approximate gist)}}}{G} \times \underset{\substack{\text{(approximate vocabulary size)}}}{V} = \underset{\substack{\text{(amount of air the medulla oblongata tells the diaphragm to draw into the lungs for the coming verbal statement)}}}{B}$$

## The Eyes

*The muscles around your eyes are 100X too strong merely to pull your eyeballs around. Why all this extra brawn? To convey meaning. So don't blink, or you'll seem nervous.*
